

YP-30 & YP-40 Yield-Pro® Planters

Singulating Planting

The new YP-30 and YP-40 redefines planting flexibility with a choice of 3 openers and 8 row spacings. These 30' and 40' frames can be equipped with 10HDP series openers for 7 1/2" wheat and 15" soybeans, or 20P series opener with side depth gauging wheels that can plant on 8" or 10" row spacings, or 25 series opener with side depth gauging wheels that can plant on 8" or 10" row spacings, or 25 series openers as narrow as 10" that offer superior seed placement on any seed it plants. These heavy duty planters can be equipped with a semi-mounted fertilizer cart. Simply load the onboard 82 or 150 bushel poly hoppers and start planting or if you want, seed directly from the seed companies bulk box. Big, tough, versatile, productive are just a few words that describe the new YP-30 & YP-40.

"Setting the pace through innovation."

YP-40 with the 25 Series Opener

YP-30 with the 25 Series Opener

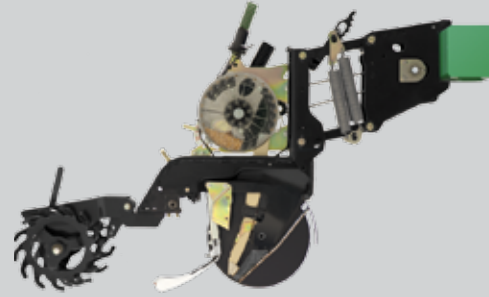

Features

1. **OPTIONAL SEMI-MOUNTED FERTILIZER CART**
2. **SUPERIOR FLEX** - Designed to flex in the field up to 20 degrees up and 20 degrees down. Couple that with a floating hitch and this unit can handle the toughest terrain with ease.
3. **FLOTATION TIRES** - 15x16.5 skid steer tires provide 2,300 square inches of flotation with a 3" sink. Only 9-11 lbs/sq inches depending on opener choice and row spacing.

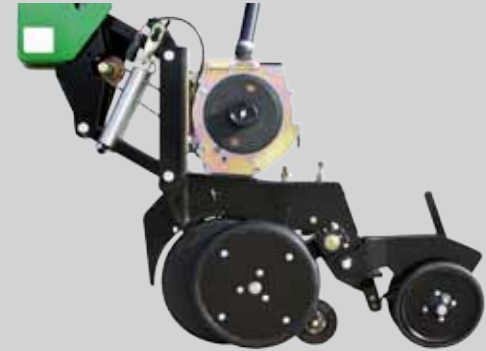

Row Unit Options

25 Series Opener
The 25 series opener is setting a new standard for spacing and depth control. 15", 4mm blades are offset 1/2" for unmatched penetration. Clear-Shot® seed tubes with Air-Pro® Seed Metering Meter, Population Max™, and/or Singulator-Plus™ provide excellent seed placement for uniform emergence.

10HDP Series Opener
The 10HDP series singulating opener features rear depth gauging press wheels in your choice of 3 styles. 11" of stagger between rows help clear residue and the parallel linkage provides 10" of vertical travel.

20P Series Opener
The 20 series opener offers singulated seed on a small, heavy duty parallel linkage opener. 13 1/2", 4mm blades with 2" side depth wheels allow for narrow row spacing with accurate depth control. Ideal for stale seedbed planting.
